## Order Form Information & Instructions:

### How to get your ring size:

- Measure your finger size at the end of the day when your fingers are at their largest (like sizing shoes).
- Don't measure finger sizes when your hands are cold; let them warm up to room temperature.
- The width of a ring is an important factor in determining the right finger size.
- A wider ring may require a slightly larger size, because it covers more of your finger.
- Wrap a piece of string or a strip of paper around your finger.
- Mark the point where the two ends meet.
- Measure the string or paper against a ruler to get the circumference of your finger.
- Divide that by 3.14 to get the diameter of your finger.
- Look up your ring size using the table shown below.
- OR use a ruler and measure the inside of one of your rings that fits well and compare that with the measurement you took with the string result. It should be the same or close!

### Ring Size Guide:

Inches	MM	HK	JAP	USA	UK AUS NZ	FRA	GER	SWIT
.52	13.21	3	2	2	D	41.5	13.25	1.5
